SPECIAL ABILITIES

Bodyguard: If a Leader model is the target of an Attack Action and within 2" of this model, this model may become the new target of that attack. Declare this after the target is selected, but before any dice are rolled.

The Best There Is: When this model rolls an Auto Hit on any Attack, it does +1 Damage.

Tougher Than You: This model ignores the first point of Damage it would take each Turn.

Healin' (6/7/8/9): When this model is taking his last BP of Damage, before marking it off roll 1D10; for the first time a 6+ will restore 2 BP. Each subsequent roll adds +1 to the number required to roll to a max of 9+. Each time he succeeds he restores 2 BP.

TALENTS

Furiously Berserk: Lo'Gaan makes an Attack Action against all enemy models within 5". Additionally, he receives a +1 to his MCA and PRC for these Attacks.
