*Santa Grub loves Christmas time,
Giving presents when he comes near,
Sliding around the battlefield,
Spreading Christmas cheer.*

*Could it be a Missile Toe or a Candy Cane?
Maybe some Hot Chocolate or an extra magazine?
A grenade or maybe a String of Lights,
He's sure to make a scene.*

The Santa grub starts the game in the middle of the battlefield and moves in random directions each round using the rules below.

Spreading Christmas Cheer - At the beginning of each round, roll for Stray and move the Santa Grub model the distance and direction shown. Any model within 2" of the Santa Grub after he stops may roll a D10 on the Presents list to see what present Santa Grub brought.

If no presents were given, immediately roll for stray again and move the Santa Grub repeating the above rule. Santa Grub will only do this extra move once per turn.

Should the Stray roll send Santa Grub out of the battlefield area, he will move in the opposite direction of the Stray roll the full amount rolled. If this also sends him off the battlefield, reroll the Stray.

Naughty List - any model that attacks the Santa Grub is written into the Naughty List and will NOT receive a present if the Santa Grub comes near per the Spreading Christmas Cheer rule above.

Present Explosion: BW(3) When Santa Grub's last BP is marked, he explodes! All models within 3" of this model are auto hit with a PRC 6 attack. Remove this model from play once all attacks are complete. This Weapon causes 2 Damage. Make 3 rolls on the present table and place a token marking each one on the battlefield using the Stray rule for placement.
